

News Release

Model 825-TA Container Transporters

June 2024

Lakewood New Jersey... Dalemark Industries, Inc., a leader in coding and product handling systems for Industrial and Consumer Packaging, is pleased to announce improvements to its **Model 825-TA CONTAINER TRANSPORTERS**.

Our **AMERICAN** designed and manufactured units are made for in-line or off-line use. They will automatically convey round, oval, rectangular or square plastic, glass, composite, or metal containers smoothly to provide an excellent, stable platform for the integration of High Resolution, C.I.J. or Laser Coders for marking onto the top, bottom, or sides of the containers at speeds up to 300 fpm. Systems feature Adjustable Height Legs and Adjustable Width Transport Belts to accommodate a wide range of filled or empty containers up to 10" wide. A Variable Speed Controller allows easy speed matching to the customer's production line.

Dalemark Industries, Inc offers a track record of 19 Patents and a history of 72 years of experience meeting the needs of the packaging industry with Ink Jet, Flexographic & Thermal Printers, P/S Labelers, Round & Flat Product Handling Systems and related products.
