

News Release

The New CODITHERM I-ROLLER Digital Transfer Printer

January -2025

Lakewood New Jersey... Dalemark Industries, Inc., a leader in coding and product handling systems for Industrial and Consumer Packaging, is pleased to announce the introduction of its new **CODITHERM I-ROLLER Digital Transfer Printer**.

This unique and patented technology allows for thermal transfer marking of products that flat, flexible, curved, circular, porous and non-porous. Copy changes are fast and easy via an integrated Touch Screen or via PC or LAN. Print areas up to 100mm's x 330mm's are available.

This improved **CODITHERM** Printer permits extremely versatile, high-quality 300 - 600 DPI marking of production batches with texts, barcodes, variable information and/or logos and is perfect for marking on plastic or coated metal, wood, leather, paper, boxes, bags and flat cartons. Improvements include rotator devices for round or conical products, new clutch mechanism for controlling ribbon tension and providing image accuracy of +/- .02", Near Edge Print Head, Ribbon Saver, a dependable Infra-Red Heated Roller plus an optional 600 DPI Print Engine.

The **CODITHERM** consists of a Controller and a Printing Unit. Available with a Pad, Curved, Rocker or Roller Applicator, these units are an ideal substitute for Hot Stamp, Silk Screen, Offset and Pad Printers and can be setup to operate in either a Tabletop or Inline intermittent print mode for both short and medium run applications.

The CODITHERM I-ROLLER - simplicity, flexibility, and highest quality!
