

## Inkjet Inks for Case Coding. Keep the quality. Reduce your costs.

Dalemark is your source for high-quality inkjet inks which meet or exceed the OEM standard. Now you can reduce your ink costs with products engineered to 100% compatibility on installed case coding equipment. Aggressive filtration standards deliver superior performance for both high resolution and large character inks, maximizing system uptime. Dalemark assures just-in-time delivery on its broad product line of black and color ink case coding solutions.

### Ideal for Drop on Demand Printing on Corrugated

Cost competitive high resolution and large character inks produce crisp, clear barcodes and text for all case coding applications.

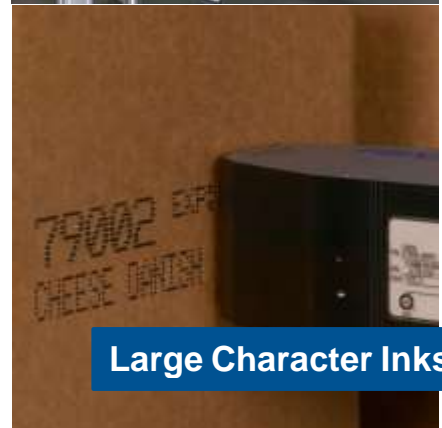

- Engineered inks, injection molded bottles, and patented spill proof caps are designed to meet or exceed OEM standards.
- Exacting filtration standards assure free flow of ink through all filters with no buildup. High Resolution Inks are filtered to less than 1 micron. Large Character Inks utilize de-ionized water and are extensively filtered eliminating virtually all particles.
- "Pour-over" replacement inks save time and eliminate waste as they do not require the system to be flushed before use.
- Various sizes available to accommodate both small and large volume delivery systems for maximum efficiency.
- 100% satisfaction guaranteed.

Compatible inks designed for use in most OEM coders, including:

Marsh	Foxjet	HSA	Markem
Videojet	Loveshaw	ITW	Imaje
Diagraph	Mathews	Domino	And More!

High Resolution Inks

Large Character Inks
